

Industry vertical: Petrochemicals

Technology: SAP (downstream) and Oracle Forms (upstream)

Industry: Petrochemicals

Infuse Technology: Infuse useMango™ for SAP Webdynpro

Infuse Services: Test Centre of Excellence

Infuse Solutions: ERP Testing

Objectives

- Establish a Test Centre of Excellence
- Provide expertise in use of HP tools and help grow the centralised testing team
- Rapidly deploy test automation on a highly customised SAP/Oracle environment

Approach

- Customized Test Factory methodology adopted for:
 - Test Management Service
 - Functional Testing
 - Performance Testing

Results

- Grew and adapted the centralized test team using Infuse iSDM methodology customized to specific customer needs
- Functional and Performance Validation of 100+ projects since 2006
- Captured major performance defect during Oracle RAC upgrade that would have stopped offshore gas production
- Helped client meet business objectives which included increasing production
- Implementing useMango™ for functional testing
- Reduce test cycle times by 85%
